Winter Newsletter

No matter what's going on in the world, we must always move forward.

With this in mind, **The H. L. Turner Group** offering these ideas for how to optimize your upcoming architectural and engineering projects for success. We invite you to consider how some of these solutions may align with your own team's goals for the coming year, and if you have any questions, we would love to hear from you!

How Feasibility Assessments Improve Long-Term Efficiency

Outlining priorities and minimizing tax impact are just the beginning of what can be done with the information gathered during a feasibility assessment. **Learn more** about how this step is a game-changer for you and your team.

Turner Group Named Finalist in ACEC-NH Excellence Awards!

Moeckel Pond was a source of food and rest for

migrating waterfowl, and a supply of water for the abundant wildlife in the surrounding woods. When its dam fell into disrepair, negatively affecting the wildlife, we undertook the **Marsden-Finn Dam project** in partnership with SLR International Corporation. The results are unlike any other dam in the state of New Hampshire.

IN THE NEWS: Turner's Becht Featured in *Hydro Leader Magazine*

Read more about how an incredible challenge at the Noone Falls Mill hydroelectric facility, located in Peterborough, NH, resulted in an innovative solution and widespread community support.

“In a moment of decision, the best thing you can do is the right thing to do, the next best thing is the wrong thing, and the worst thing you can do is nothing.”

Theodore Roosevelt
